

Walking The Watercress Way: short circular routes

WALK THE Watercress Way

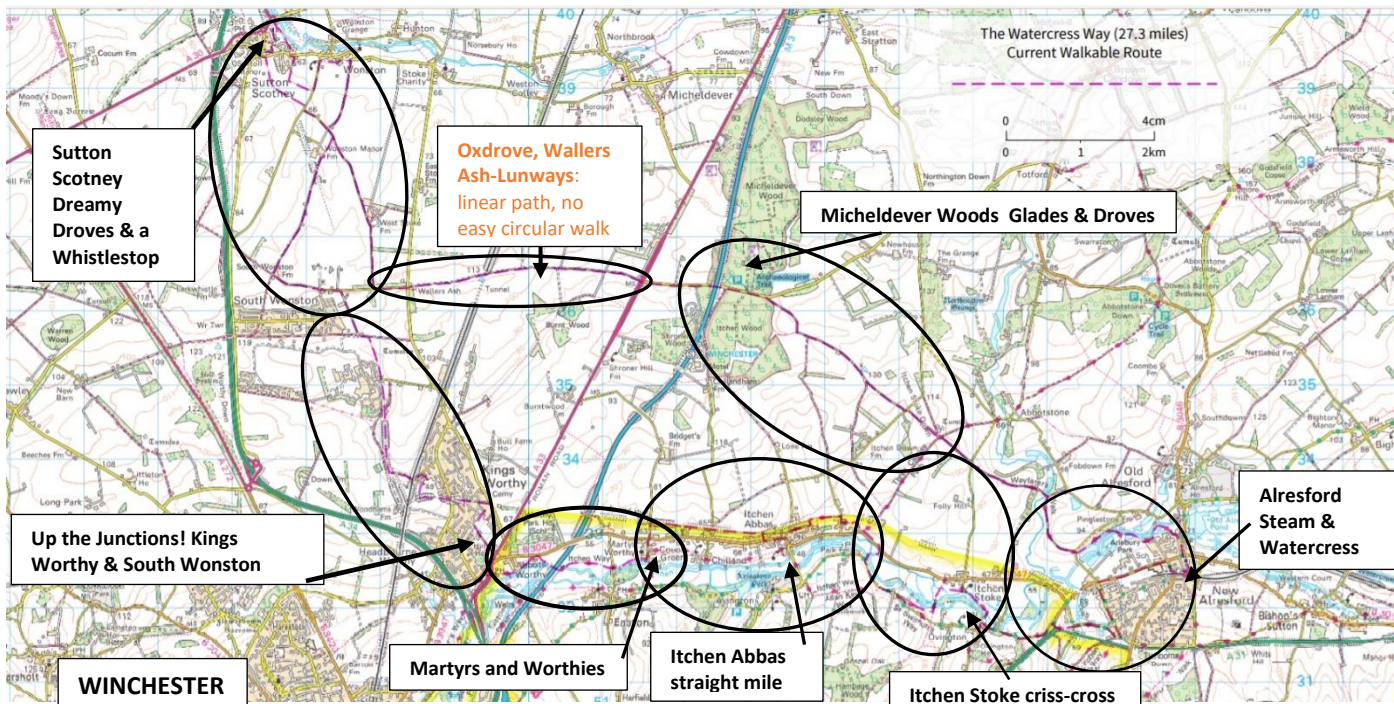

Walk the marathon length trail by joining up 7 shorter circular walks

The Watercress Way N.E. of Winchester, Hampshire, is waymarked for walkers.

Over a third of the route is in the **South Downs National Park**. It follows parts of the track bed of two Victorian railway lines closed mid C.20th, linked by historic rights of way including livestock droves. It intersects or follows many other famous routes: The Three Castles Path and St Swithun's Way, passing through the beautiful rolling chalk downland of the River Itchen, Dever and Arle.

Download the map & written guides, with modified routes for cycling and horse riding avoiding footpaths.

7 Guided walks by the Watercress Way charity: maximum of 10 people in 2 socially distanced 'bubbles'. Email & phone data saved using Government guidelines.
